

ADMISSION CONDITIONS

New approaches in educational training are also being practiced. The curricula and academic programs are also revised and improved based on those of the best world Universities of technical orientation. University also introduced new informational technologies of training on the basis of modern computer technique and informational networks.

All foreign citizens who have senior secondary school certificate are eligible for admission to Vinnytsia National Technical University.

VNTU prepares bachelors on such fields of knowledge's:

- Management;
- Ecology; Environment Protection and Balanced Nature Management;
- Computer Sciences;
- Computer Engineering;
- Software Engineering;
- System Engineering;
- Machine Engineering;
- Metal-Cutting Technologies;
- Heat Power Engineering;
- Electroengineering and Electrotechnologies;
- Electromechanics;
- Micro- and Nano-electronic;
- Electronic Devices and Units;
- Radio Engineering;
- Radio Electronic Units;
- Telecommunication;
- Metrology and Information-Measuring Technologies;
- Optoengineering;
- Civil Engineering;
- Automobile Transport;
- Information and Communication System Safety;
- Control of Information Safety.

The list of specialities in accordance with Educational Qualification Levels (Specialists (S), Masters (M)):

- Management of Organizations (SM);
- Ecology and Environment Protection (SM);
- Automated Systems Software (SM);
- Intelligent Systems for Decision Making (SM);
- Technology of Mechanical Engineering (SM);
- Metal-Cutting Machine Tools and Systems (SM);
- Automobiles and Automobile Facilities (SM);
- Heat Power Engineering (SM);
- Electric Power Stations (SM);

- Electrical Systems and Networks (SM);
- Electrical Systems of Electrical Power Consumption (SM);
- Radio Engineering (SM);
- Telecommunication, Radio Broadcasting and Television Equipment (SM);
- Microelectronics and Semiconductor Devices (SM);
- Electronic Devices and Units (SM);
- Electronic Devices Manufacture (SM);
- Biotechnical and Medical Apparatus and Systems (SM);
- Telecommunication Technologies and Facilities (SM);
- Laser and Optoelectronic Engineering (SM);
- Metrology and Measuring Engineering (SM);
- Control and Automation Systems (SM);
- Computer Systems and Networks (SM);
- Industrial and Civil Engineering (SM);
- Town Construction and Public Utilities (SM);
- Head- and Gas-Supply and Ventilation (SM);
- Electrical Systems and Complex of Transport Means (SM);
- Electro-Mechanical Automated Systems and Electric Drive (SM);
- Technology and Equipment for Regeneration and Increasing Wear Resistance of Machines and Units (SM);
- Telecommunication Systems and Networks (SM);
- Administrative Management in Sphere of Information Protection with Limited Access (SM);
- Data Protection in Computer Systems and Networks Access (SM);
- Power Engineering Management (SM)

Fulltime students are trained in Ukrainian while correspondence training is provided in Ukrainian or Russian. The preparatory course is intended for adaptation and mastering Ukrainian for a year.

1. To obtain the invitation for studies a foreign citizen shall fax or e-mail the following papers:
 - 1.1. legal documents for education with a qualification record which contains the subjects studied and marks obtained;
 - 1.2. photocopy of passport which contains name, photo, date of birth, residence address, passport No, date of issue and expiry.

After considering education papers VNTU can forward student's invitation to foreign citizen's mail address which shall be submitted by a bearer to Ukraine's Embassy in his/her home country.

2. For getting a visa in Ukraine's Embassy it is necessary to submit the following papers:
 - 2.1. legal document for education with subjects studied within 2-3 years, marks obtained and the number of hours which shall be certified by Ministry of Education as well as Ministry of Foreign Affairs and Ukraine's Embassy in the home country;

- 2.2. medical certificate testifying the absence of HIV–AIDS–infection;
- 2.3. **certificate of general medical examination authorized by official medical institution of citizen's country and dated not earlier than two months before coming to Ukraine;**
- 2.4. birth certificate;
- 2.5. invitation for studies at VNTU;
3. On crossing Ukraine's border a foreign citizen shall produce the following:
 - 3.1. **papers mentioned above from 2.1. through 2.5., the medical certificate being issued not earlier than two months before coming to Ukraine;**
 - 3.2. **certificate of Ministry of Education mentioned in 2.1, 2.3, 2.4 shall be legalized and translated into Ukrainian (Russian) in Ukraine's Embassy;**
 - 3.3. passport with the open visa which allows to enter Ukraine for studies;
 - 3.4. return ticket with the date of coming back to home country valid within one year;
 - 3.5. **10 photos (size 3x4 cm);**
 - 3.6. **certificate testifying \$2500 cash available;**

4. **A foreign citizen should inform the University about the date and time of arrival as well as flight number before 7 days to be met by our representative at the Boryspil Airport.**

Studies at VNTU start on September, 1. Therefore it is desirable for a foreign citizen to arrive in Vinnytsia a week before. The deadline of coming to Ukraine for studies is November, 15.

Foreign students are provided with a dormitory. The average monthly rent for residence is about \$ 30 per month.

Annual tuition fee for preparatory course is \$1200.

Full-time training is \$1800 per year.

Correspondence training is \$1260 per year.

Terms of training to get:

B.S. degree is 4 years;

M.S. degree is 1,5 years;

Ph.D course takes 3 years. **The tuition fee for Ph.D course is \$2500 per each year of studies.**
